DATASHEET

Living Book

The app you carry. A permanent record that remembers you and your business, with J, your AI assistant inside.

STATUS **In private testing**

Who it's for	People and small businesses who want one place to start
Part of	The Premier Choice Intelligence platform: machines, agents, verification, approvals and the living record

What it is

The Living Book is a permanent record that remembers each person and each business. It is the app our customers carry: one front door to everything Premier Choice does.

Inside it is J, your AI assistant inside the Living Book. J is an AI assistant, not a person. J asks one question, "What door would you like to open first?", then routes your request to the right place. Every request, result and check attaches to your Living Book, so nobody starts over.

Who it's for

- Owners who are tired of explaining their business again every time they ask for help.
- Customers of the Premier Choice companies, who reach every service from one app.
- Small teams that need a shared record of what was asked, what was done and how it was checked.
- Businesses anywhere: the record is written in plain language and belongs to the business it describes.

Key capabilities

One permanent record
A Living Book for each person and each business that keeps growing as work is done.

J at the front door
J, an AI assistant, asks "What door would you like to open first?" and routes your request.

Pick up where you left off
Context stays on the record, so you never start over with a new conversation.

A receipt for every request
What was asked, what was done and how it was checked, written to the record.

You stay in charge
Anything that speaks for you, spends money or can't be undone waits for your yes.

One door to our products
Gap Meter, Day Off and Founders Mode are reached through the same front door.

How it works

1. **Open the app**
   J greets you and asks, "What door would you like to open first?"
2. **Say what you need**
   In your own words. J asks a follow-up question only when it needs one.
3. **J routes the request**
   Your request goes to the product or service that fits, with your record attached.
4. **Work is checked and approved**
   A second party confirms the work against the record. Anything that speaks for you waits for your approval.
5. **Your Living Book keeps it**
   The request, the result and the check stay on your record for next time.

Built and tested in our own companies

The Living Book is the record our own companies run on. Every machine, task and check in the Premier Choice family of companies writes to it, and it is how one founder and a team of AI agents keep the work in one place.
